Inside each chapter — three ways to learn

● Read — Key points

The "most important things to remember." Skim these first to get the big picture.

● Recall — Flashcards

Tap a card to flip it, then rate how well you knew it — hard cards come back sooner. Tap ★ **Star** to save tricky ones.

● Rank — MCQs

Study mode: see the answer & why each option is right/wrong. **Timed test:** 45 sec per question, score at the end.

Best way to study: do a **Study-mode** run first to learn, then a **Timed test** to check yourself under exam pressure. Afterwards, use **Review weak areas** and **Starred** to focus on what you missed.

No internet? Once a chapter has opened, it keeps working **offline**. Forgot your password? Use **"Email me a code"** on the sign-in screen.
